

DucoBox **Silent**

The quietest CMEV on the market!

Scan & discover

NEW GENERATION

DUCO

Built-in centralised humidity sensor

Optionally expandable with CO₂ Box Sensor or Room Sensor.

Save time = Save money!

Simplified calibration with trickle, boost, purge and optical led feedback.

The QUIETEST MEV on the market

Sound power level of 46.5 dB, emitted from the casing

DUCO

DucoBox **Silent**

The quietest CMEV on the market!

The energy-efficient, compact DucoBox Silent provides central extraction of humid and polluted air within DUCO's demand-controlled natural ventilation systems. The latest generation features a simplified calibration procedure and **integrated humidity sensor** for **easy installation** and operation / user controller. The efficient DC motor guarantees a long service life.

FEATURES

Width x Height x Depth:

480 x 480 x 194 mm

Weight: 4,3 kg

Extraction capacity at 150 Pa: 400 m³/h (111 l/s)

Power supply: 230 VAC

Energy label: class B in a system with at least two sensors

Communication: RF

Peak power:

DucoBox Silent UK: 84 W

Air duct connections:

Extraction areas:

7 x Ø 125 mm

Extraction to the outside: 1 X Ø 125 mm
