

## TECHNICAL DATA SHEET

# User controller 'Ventilative Cooling' and 'Sun Control'

User controller within DUCO's control system.

The push buttons on the user controller can be used to control the ventilative cooling and solar shading as required. The user controller measures the indoor temperature to ensure optimal automatic control.

### Physical properties

|                               |  |
|-------------------------------|--|
| <b>Item number</b>            | 0000-4752 – User controller 'Sun Control'<br>0000-4754 – User controller 'Ventilative Cooling' |
| <b>Dimensions (W x H x D)</b> | 69 x 69 x 55.5 mm (excl. cover)<br>83 x 83 x 55.5 mm (incl. cover)                             |
| <b>Weight</b>                 | 182 g  |
| <b>Material</b>               | Polycarbonate-ABS  |
| <b>Colour</b>                 | White  |
| <b>Display</b>                | 4 RGB LEDs   |
| <b>Operation</b>              | Manual modes + automatic control   |
| <b>Ambient temperature</b>    | 0 °C to 40 °C  |

### Electrical properties

|                        |                  |
|------------------------|------------------|
| <b>Power supply</b>    | 24 VDC           |
| <b>Working voltage</b> | 21.6 to 26.4 VDC |
| <b>Communication</b>   | Duco Wired       |
| <b>Peak power</b>      | 1,8 W            |
| <b>IP class</b>        | IP31             |
